Overnight Closures of Vincent Thomas Bridge in San Pedro

SAN PEDRO — Caltrans will implement overnight full closures of westbound State Route 47 (SR-47) at Vincent Thomas Bridge between Ferry Street and Harbor Boulevard beginning Sunday night, August 9. Closures will occur nightly from **10:45 p.m. to 6:45 a.m.**, Sunday night through Friday morning.

Additionally, the westbound SR-47 on-ramp at Ferry Street will also be closed during the overnight closures. Construction activities include installing a work platform to provide crews with access to the bridge deck from multiple locations, as well as installing permanent and temporary steel in advance of the full bridge closure scheduled for November 1, 2026.

During the westbound overnight closures, traffic will be detoured via SR- 47 to Route 103 to Pacific Coast Highway to Route 110. (See map below)

This work is part of the Vincent Thomas Bridge Deck Replacement Project. A critical infrastructure project totaling \$752.8 million, the deck replacement will require partial and full closures of the bridge over the next two years. More information is available at the [project website](#). Skanska-CEC Joint Venture is the general contractor for the project.

Due to weather or operational factors, the schedule is subject to change, including dates and times, the number of closures, and other details. Motorists should expect delays when utilizing the Vincent Thomas Bridge and use Caltrans [Quickmap](#) to review current traffic conditions before traveling. Caltrans reminds drivers to exercise increased caution near the closure and **Slow for the Cone Zone**.
