Benefits Bulletin #6 (3) - 2025

Dylan, searching patient

### HELP PATIENTS LIKE DYLAN FIND THEIR CURE

Join NMDP<sup>SM</sup> at our registry recruitment event to find out more

For patients with life-threatening blood disorders like leukemia, lymphoma or sickle cell, a cure exists through a blood stem cell donation. A simple cheek swab could be the first step to saving Dylan or someone like him. His friends, family, and community are rallying behind him, but they need your help too. Every new person who joins the registry gives Dylan another chance at finding his perfect match. Be the match. Be the hope. Be the cure
